### Chocolate Fondue Elf & Safety (the small print)

We love fondues and hope you will too. Whether you are a regular fondue fan or a newbie, please read the notes below. Stating the obvious, the skewering forks, pot and contents are hot. Please be careful if moving the fondue pot to ensure the tea-light does not drop out of the base. When you have finished and only if it is safe to do so, please blow out the tea-light. Beware, the fondue pot and chocolate will remain hot for some time, so please be careful. All children must be carefully supervised by a responsible adult at all times. We know the above all sounds very 'elf and safety', but we want you to enjoy a fondue as much as we do, so happy dipping!
